The District operates from four (4) fire stations and employs sixty-one (61) people. The District provides services in the following functional areas:

- c) Plan Review
- d) Inspections
- e) Haz Mat Response
- f) Technical Response
- g) EMS First Response – BLS Level
- h) EMS First Response – ALS Level

B. Performance Review Background

In 2021, Section 189.0695, F.S., was created and requires all independent special fire control districts to conduct a performance review every five years beginning October 1, 2022. With the exception of independent special fire control district located within a rural area of opportunity, all independent special fire control districts must contract with an independent entity to conduct the performance review. The independent entity must have at least five (5) years of experience conducting comparable reviews of organizations similar in size and function to the independent special fire control district under review, must conduct the review according to applicable industry best practices, and may not have any affiliation with or financial involvement in the reviewed independent special fire control district. The completed performance review will be filed with the District’s governing board, the Auditor General, the President of the Senate, and the Speaker of the House of Representatives no later than July 1, 2023.

C. Scope of Work

The successful Consultant will perform a performance review which is defined as an evaluation of the District and its programs, activities, and functions. The term includes research and analysis of the following:

- The special district's purpose and goals as stated in its charter.
- The special district's goals and objectives for each program and activity, the problem or need that the program or activity was designed to address, the expected benefits of each program and activity, and the performance measures and standards used by the special district to determine if the program or activity achieves the district's goals and objectives.
- The delivery of services by the special district, including alternative methods of providing those services that would reduce costs and improve performance, including whether revisions to the organization or administration will improve the efficiency, effectiveness, or economical operation of the special district.
- A comparison of similar services provided by the county and municipal governments located wholly or partially within the boundaries of the special district, including similarities and differences in services, relative costs and efficiencies, and possible service consolidations.
- The revenues and costs of programs and activities of the special district, using data from the current year and the previous three (3) fiscal years.
- The extent to which the special district's goals and objectives have been achieved, including whether the goals and objectives are clearly stated, measurable, adequately address the statutory purpose of the special district, provide sufficient direction for the district's programs and activities, and may be achieved within the district's adopted budget.
- Any performance measures and standards of the special district's programs and activities using data from the current year and the previous three (3) fiscal years, including whether the performance measures and standards:
 - Are relevant, useful, and sufficient to evaluate the costs of the programs and activities.
 - Are being met.
 - Should be revised.
- Factors that have contributed to any failure to meet the special district's performance measures and standards or achieve the district's goals and objectives, including a description of efforts taken by the special district to prevent such failure in the future.
- Recommendations for statutory or budgetary changes to improve the special district's program operations, reduce costs, or reduce duplication, including the potential benefits to be achieved and the potential adverse consequences of the proposed changes.

The performance must be conducted in accordance with the applicable industry best practices (including but not limited to the National Fire Protection Association, Center for Public Safety Excellence, and the Insurance Services Office).

Although the Consultant is being hired to complete a performance review required by Section 189.0695, F.S., the Consultant's client will be the District and not the Florida Legislature. As a result, the District Fire Chief will approve the report being submitted to the State.

The Consultant's evaluation will be documented in a draft report, which shall include a section on each paragraph provided in Section 189.0695(1)(a)-(i), F.S. The Consultant shall provide the draft report to the District and have a meeting with the District Fire Chief and appropriate staff to discuss the draft report, including the results, conclusions, observations, and recommendations. The Consultant may be required to revise the draft report to address the issues raised during the meeting. The District shall have at least two (2) weeks to review the draft report and submit responding comments to the Consultant. If timely received, the Consultant shall include the District's responding comments in the Consultant's final report, which shall be included in a separate section of the final report. Upon completion of the final report, the Consultant shall provide an electronic copy, which must be ADA compliant, and ten (10) printed and bound copies of the final report to the District. In addition, all relevant electronic files will be provided in their native format on a USB drive.

If requested, the Consultant will deliver a final presentation to the District's Board of Fire Commissioners. In addition, the Consultant will submit the final report to the State Auditor, Florida Senate President, and Florida House of Representatives Speaker no later than seven (7) days from the presentation to the Board of Fire Commissioners, if requested, or submission of the final report to the District, whichever is later.

The District intends that the Project should be completed within 12 weeks of the execution of the contract.

D. Price

The District will pay a fixed fee to be paid upon the receipt and approval of the final report by the District. The stated fee shall include all costs associated with completion of the Project and there shall be no hidden costs.

Full disclosure of nature and amount of all fees and charges is mandatory. The District shall not be responsible for the reimbursement of any costs not specifically set forth in the Consultant's proposal. The District reserves the right to accept any part or all of the Consultant's fee schedule. Any reimbursement of expenses approved by the District shall be in accordance with the District's Travel Expense/Per diem policy OCW 4.9.
